My main career goal is to seek more and more knowledge, passionate about knowing and applying new technologies in my daily life. I have a lot to learn and I understand that, as I always look for the best possible way to share my knowledge with those who wish to learn.

EXPERIENCE

04/2019 – 10/2019

FRONT-END DEVELOPER INTERN, BIGGY PERSONALIZAÇÃO E RECOMENDAÇÃO

Biggy product integration (to learn more: https://biggy.com.br/) on e-commerce platforms to improve user experience and store conversion. Development of features in Angular 5+ environment and email marketing. In my daily life I use SASS, NodeJS, Typescript, Angular, EJS template engine, Scrum methodology, and the BEM convention.

10/2019 – MOMENT

FRONT-END DEVELOPER INTERN, VTEX

Tool integration across multiple e-commerce platforms, improving user experience and store conversion. Main objective of study and activities on the VTEX IO platform. I also participate in secondary projects for integration of B2B e-commerce platforms for VTEX IO, responsible for the development of its Store Themes (Basic Structure of an ecommerce interface). Some of the technologies used in my daily life: React, Typescript and NodeJS

EDUCATION

3 SEMESTERS

INFORMATICA PARA INTERNET, ETEC LAURO GOMES

my gateway to development, programming and design concepts. Focused on web development and programming languages like Javascript and PHP. In my tcc I worked as a Front End developer on a dating related system.

3 SEMESTERS

DESENVOLVIMENTO DE SISTEMAS, ETEC LAURO GOMES

Technical course covering both web, desktop and mobile concepts. Technologies used such as Java, C #, and javascript. In my tcc I worked as a Fullstack developer, taking care of all the concept

and technologies used in the application, dividing the application into 2 parts, the first part being the main concept covered in tcc, and the second part a system based on a CMS.
